Ikemefuna (Ike) Chukwunyerenwa
ijc3093@rit.edu
Rochester, NY

Dear manager:

I am currently studying at Rochester Institute of Technology (RIT), Rochester, NY. As a Web and Mobile Computing (WMC) major, I am pleased to apply for the Web Developer position this Summer 2021 for my internship.

I'm experienced using software programmings such as Java, HTML5, CSS3, Javascript, C#, JSON, Javascript, Ajax, Swift, Kotlin, SQL, and PHP. I also am experienced in utilizing inVision software, Adobe Photoshop, and Illustrator for the translation of wireframe and rapid prototyping tools.

In my Web and Mobile Computing at RIT, I'm responsible for implementing visual elements that users can look at and interact with within the web and mobile applications. In general, I'm supported by back-end web developers (using software development). I'm also responsible for server-side application logic (databases or files) and integration of my work as front-end development.

I learned that the importance of project groups is to provide me with leadership, motivation, vision, and to understand how to remove roadblocks to do our best work together as a team.

I'm motivated, enthusiastic, and hard-working with excellent attention to detail. I am enclosing my resume for your consideration and would appreciate it if we could arrange a mutually convenient time to meet to discuss the opportunity further. Feel free to contact me through email at ichukwunyerenwa@gmail.com or phone at 585-957-0082.

Thank you very much for your time and consideration.

Sincerely,

Ikemefuna Chukwunyerenwa
